

First Class 2000 Release Notes – Version 3 Build 351

20 January 2003

Shaded items are new features. Those in bold are significant changes that you will need to take into consideration before upgrading to this version.

Menu	Sub-Menu	Details
File	Import – Blocking	This import clears the blocking grid, which caused an error when “Grid Items” in the blocks pointed to the grid. The import now clears the “Grid Item” field for all blocks associated with the imported year level.
Maintenance/Tools	Blocks/Timetables	This version fixes the error from the previous version that left student timetables blank where they were involved in blocks.
Tools	Timetables	There was a bug that sometimes caused a clash warning where no clash existed, to appear when editing a cell on the timetable. This has been fixed.
		There was a bug that caused incorrect entries to be deleted from a block when editing a block. This has been fixed.
Reports	Save to PDF	This now exports to Adobe Acrobat 4. If you have an earlier version than this, you will need to upgrade your Acrobat reader software.
Help	Register	The licensing module has been updated. Trial licenses are now required to run the software in demonstration mode.
