

First Class 2000 Release Notes – Version 3 Build 403

1 May 2003

Shaded items are new features.

Menu	Sub-Menu	Details
Maintenance	Extras	If rooms are released due to camps and excursions, they are now available for use during the periods lost. The bug where forms didn't show in "Today's Extras" has been fixed.
	Timetables	Exporting to Excel formats cells as General instead of Text. This allows for the possibility of more than 255 characters in a cell.
Help	Contents	First Class 2000 Help is now context sensitive. If you have a screen open and press F1 , Help now goes to the appropriate topic.
